## Education

College of Engineering Guindy, Anna University, Chennai.  
Bachelor of Computer Science and Engineering

Aug 2015 - May 2019  
8.79/10

## Areas of Interest

Natural Language Processing, Deep Learning, Machine Learning, AI, Data Analytics,

## Skill Set

- Languages : Python, R, C++, Java, SQL, Apex, JavaScript.
- Tools : Pandas, Matplotlib, Tableau, Keras, Salesforce.
- Languages Known : English, Tamil, Telugu.

## Experience

Software Engineer

Jul 2019 - Present

**Shell India Markets Pvt LTD, Bengaluru**

Working as a developer in salesforce. Designing and developing the lightning components in salesforce and SpringCM contract lifecycle management using Apex, JavaScript and HTML.

## Projects Presented

**Automatic Cricket Highlights Extraction,** Python, OpenCV, Tensorflow, Keras.

Extracts the key events based on the excitement and event driven features to generate highlights.

**Sarcasm Detection by Sentimental Analysis,** Python, NLTK, Tensorflow.

Detects whether the movie review is sarcastic or not using sentiment analysis.

**Automatic Attendance using Face Recognition,** Python, OpenCV.

Recognises the face from the trained model, automates the attendance process.
